Candidate Information

NAME Ankitmx-byte	EMAIL null
INTERVIEWER 👩‍💼 Aditi Verma	DATE November 21, 2025
DIFFICULTY Easy	INTERVIEW TYPES DSA

42/100

Overall Performance Score

Performance Breakdown

45	50	40
HR & BEHAVIORAL	TECHNICAL	DSA

50	30	30
SYSTEM DESIGN	COMMUNICATION	CODING

Detailed Analysis

The candidate completed 4 questions in 6 minutes, demonstrating adequate performance overall. Communication could be improved with more detailed responses. Technical understanding needs reinforcement. In the coding round, 0 out of 0 test cases passed. Continued practice in the identified areas will significantly improve interview performance.

📈 Areas for Improvement

- Many answers are too brief - provide more detailed explanations
- Need to strengthen technical knowledge and use more technical terminology
- Work on structuring answers better with clear examples

🎯 Recommendations

- Study core technical concepts and practice explaining them clearly
- Review fundamental data structures and algorithms
- Practice the STAR method for behavioral questions

- Prepare specific examples from your experience
- Continue practicing mock interviews to build confidence
