| SYSTEM DESIGN | COMMUNICATION | CODING |

## Detailed Analysis

The candidate completed 4 questions in 3 minutes, demonstrating adequate performance overall. Communication could be improved with more detailed responses. Technical understanding needs reinforcement. In the coding round, 0 out of 3 test cases passed. Continued practice in the identified areas will significantly improve interview performance.

## 📈 Areas for Improvement

- Many answers are too brief - provide more detailed explanations
- Need to strengthen technical knowledge and use more technical terminology
- Work on structuring answers better with clear examples

## 🎯 Recommendations

- Study core technical concepts and practice explaining them clearly
- Review fundamental data structures and algorithms
- Practice more coding problems on LeetCode or HackerRank

> Focus on writing clean, efficient code with good test coverage

> Practice the STAR method for behavioral questions
