🎯 Mock Interview Report

InturnX AI Interview Assessment

Candidate Information

NAME Ankit Srivastava	EMAIL ankitsri033@gmail.com
INTERVIEWER 👩‍💼 Aditi Verma	DATE February 21, 2026
DIFFICULTY Medium	INTERVIEW TYPES HR, Technical, Coding

37/100

Overall Performance Score

Performance Breakdown

45	50	15
HR & BEHAVIORAL	TECHNICAL	DSA

50	30	15
SYSTEM DESIGN	COMMUNICATION	CODING

Detailed Analysis

The candidate completed 8 questions in 2 minutes, demonstrating adequate performance overall. Communication could be improved with more detailed responses. Technical understanding needs reinforcement. In the coding round, 0 out of 3 test cases passed. Continued practice in the identified areas will significantly improve interview performance.

📈 Areas for Improvement

- Many answers are too brief - provide more detailed explanations
- Need to strengthen technical knowledge and use more technical terminology
- Work on structuring answers better with clear examples

🎯 Recommendations

- Study core technical concepts and practice explaining them clearly
- Review fundamental data structures and algorithms
- Practice more coding problems on LeetCode or HackerRank

> Focus on writing clean, efficient code with good test coverage

> Practice the STAR method for behavioral questions

📝 Interview Transcript Highlights

ADITI VERMA

Hello, I'm Aditi. I lead architecture at our company. Today, let's discuss how you think about building large-scale systems.

ADITI VERMA

Explain how you would implement rate limiting at different layers of the stack.

ADITI VERMA

How do you handle database migrations in a production system with zero downtime?

ANKIT SRIVASTAVA

I would like to skip this question.

ADITI VERMA

Describe your approach to monitoring and observability in distributed systems.

ANKIT SRIVASTAVA

I would like to skip this question.

ADITI VERMA

How would you monitor this system?

ANKIT SRIVASTAVA

I would like to skip this question.

ADITI VERMA

What are the trade-offs of that approach?

ANKIT SRIVASTAVA

I would like to skip this question.
